WHITEPAPER

INTRODUCTION

WHITEPAPER KNUTCOIN

The remaining 25,000 Polar Bears in the Arctic are in imminent danger of extinction as their natural habitat is shrinking fast because of global warming and pollution.

This project was created to help and support selected animal conservation organizations with the sole purpose of fight for survival of these amazing creatures.

In order to do that we have brought back to digital life the once famous polar bear KNUT out of Berlin, who has become now the virtual ambassador of all living polar bears.

In addition we have created the crypto token KNUTCOIN for his endeavor, so everyone who wants to support KNUTS mission can do so by buying KNUTCOIN on PancakeSwap.finance.

7% of every buy transaction will be collected in the Charity wallet. These Funds will be donated to Friends of Knut (Charities that support Polar Bear Conservation)
and Knut's own arctic outpost in Greenland.

ABSTRACT

Save Them Polar Bears - Big Mission

KNUTCOIN was born sometime in October 2021 with the goal of
being a crypto-token with a purpose.
KNUTCOIN is a social project with a serious mission
to rescue polar bears.
In addition we bring crypto adoption to
mainstream with new concepts such as donations, Swaps,
NFTs and payments.
Within the first 30 days of KNUTCOIN launch we aim surpassing
10,000+ holders.

VALUES

Transparency

KNUTCOIN is a crypto project supported by its community of enthusiasts. We encourage open communication and believe in trust, transparency and a strong community, which are the main pillars to building longevity.

Community

KNUTCOIN is one of the fastest growing and most loved communities in crypto. We believe that only together we are strong. Community is everything and KNUTCOIN strives to include everyone from around the globe. We have multiple telegram channels dedicated to our international communities.

Trust

In crypto-currency market trust is paramount. That means full transparency not only in the community and development but also in security efforts. KNUTCOIN has been audited by a third party. No rug pulls here only serious polar bears fans.

Longevity

KNUTCOIN is in for the long haul. The decentralized community is fostering and adopting long term development of the ecosystem and foundation in efforts to drive real use cases, and greater rewards beyond any temporary trends.

KNUTCOIN

Binance Smart Chain (BSC) was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains.
With decentralized exchanges on BSCoffering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses a token protocol developed by the Binance Team called BEP-20.
Known for 5 second block speeds.
Advantages of the Binance smart chain are:
It's a proprietary blockchain, which will provide security and safety to all users and developers.
Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience.
It's EVM-compatible and will support all of the existing Ethereum toolings along with faster and cheaper transactions.
Its on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization
and enable significant community involvement.
KNUTCOIN is not responsible for the actions of the Binance smart chain network.

KNUTCOIN PROTOCOL

Crypto Powered

KNUTCOIN is owned by ProjetcsAdhoc KMG and $KNUTs community. We welcome and embrace diverse perspectives to build KNUTCOIN into the finest community in crypto. With a do-good mission of helping save them polar bears.

Save Them Polar Bears

For every buy transaction a 7% fee is distributed to the Charity wallet that collects the funds for donations. This way you can help organizations to protect the arctic and save them polar bears. In order to do that we have coded a 6hrs holding period into the smart-contract against Bot attacks. During this period no sales, transfers or swaps can be done.
On top of that we have 5M buy and 1M sell limits to protect KNUT against whales that could influence price finding in unforeseeable ways.
So you see, we have taken care that KNUT will survive and foster for the sake polar bears.

Locked LP

This Project is protected against rug-pulls by a Locked Liquidity Pool.

Marketing & Development

This Project uses 3% of each sell transaction to support additional marketing to ensure the success of Knut's Plans to Help Polar Bears and the Arctic.

Team wallet

This Project uses 2% of sell transactions towards team rewards as we believe our goals are important and a great team ensures their success!
